

ITE@OSU SPONSORSHIP PACKET

2025-2026

ABOUT OUR STUDENT CHAPTER

The Oregon State University (OSU) Institute of Transportation Engineers (ITE) Student Chapter was chartered in 1984. After a period of dormancy, the chapter became reinvigorated in 2007 and has been scaling up its activity ever since. Since its founding, the ITE@OSU Student Chapter has bridged the gap between academia and industry for aspiring transportation engineers through:

- Professional development and networking opportunities
- Research opportunities and development of research skills
- Transportation Engineering related community service
- Increasing visibility of Transportation Engineering within the College of Engineering at Oregon State University
- Real-world applications for skills learned in classroom

PARTNER WITH US!

Sponsorship funds will help the ITE@OSU Student Chapter to maintain and grow its activities. These activities allow students to engage with the transportation engineering community in new ways, producing better-informed students who are motivated to develop skills that are of value to the transportation career field.

The duration of contribution will be one academic year, starting approximately one week after receiving sponsorship. There are many different options for supporting our chapter of ITE and our mission to help students pursue a career in transportation. While sponsorship is greatly appreciated and helps keep ITE running, it is not mandatory. There are other ways to get involved such as attending our larger events or speaking on a panel. Additionally, **partial sponsorships are welcomed for partial benefits, of which can be discussed.**

Please review the following options for sponsorships and collaboration opportunities with the ITE@OSU Student Chapter. If you different have ideas of something you would like to do, we are open to suggestions!
